Right click and select "open" or double click the mboxview64.exe file. Depending on the system that this is downloaded on, mboxview.exe may be selected instead.

The system may pop-up with a Windows Defender. Select "More info" and select "Run anyway".

Options here are to "extract all" or "run."

If option to "run" is selected this is the warning that may be presented.

Once run is selected, the Mbox viewer will automatically load after selecting "More Info" and "run anyway" on the Window defender.

If "extract all" is preferred, then right click the download and select "extract all."

Once extracted navigate to the extracted file and select "mboxview64.exe." The Mbox viewer will load.
