

# **RLEAPP Guided Exercise**

Video walkthrough available on the Tool Walkthrough Playlist at https://youtube.com/@hexordia

Prior to going through this process please see the walkthrough on python and pip updates. The LEAPP's have a requirement of using python version 3.9, if you use a different version not all data may be available.

To get started, please download RLEAPP from https://github.com/abrignoni/RLEAPP

Prior to installation, verify the hash value to the known good from the syllabus for students enrolled in the HMFA Virtual Live course. The MD5 hash value for the RLEAPP-main.zip (Commit 45eb6b6) is 554A6D3A0D1BBF0F0745D7C745CFF756.

\*\*If you already have ALEAPP Installed, please move on to Set Up and Use.

### INSTALLATION

Once on the github page, click "Code" and then "download zip".

ų	main 👻 🖇 3 branches 🛛 🏷 6 tags		Go to file	Add file ▼	
	abrignoni Merge pull request #136 from abrignoni/In_progress		Local	Codespaces (New)	
	scripts	iOS Notes parsing	▷- Clone	3	
۵	.gitattributes	Twitter update	HTTPS SSH GitHub CLI		
Ľ	.gitignore	new plugin modules main code	e https://github.com/abrignoni/RLEAPP.git 🛛		
Ľ	LICENSE	Twitter update	Use Git or checkout with SVN usin	g the web URL.	
Ľ	README.md	new plugin modules main code	de		
Ľ	hook-plugin_loader.py	new plugin modules main code			
Ľ	plugin_loader.py	new plugin modules main code	Download ZIP		
Ľ	requirements.txt	Updated requirements		last month	
Ľ	rleapp.py	Fix spec		3 months ago	
Ľ	rleapp.spec	Fix spec		3 months ago	
Ľ	rleappGUI.py	Location History		4 months ago	
۵	rleappGUI.spec	new plugin modules main code		5 months ago	

Once downloaded, extract the contents of the zip to a location on your machine. Open the extracted folder and type "CMD" into the toolbar. This will pull up the command prompt in the folder.

□ cmd  ✓ →

MOBILE FORENSICS

Follow the requirements and dependencies section on the GitHub page. Follow whichever direction for the Operating System used.

Requirements			
Python 3.9 or above colder versions of 3.x will also work with the exception of one or two modules)			
Dependencies			
Dependencies for your python environment are listed in requirements.txt . Install them using the below command. Ensure the py part is correct for your environment, eg py , python , or python3 , etc.			
py -m pip install -r requirements.txt or pip3 install -r requirements.txt			
To run on Linux, you will also need to install tkinter separately like so:			
sudo apt-get install python3-tk			
To install dependencies offline Troy Schnack has a neat process here: https://twitter.com/TroySchnack/status/1266085323651444736?s=19			

#### Windows requirements install CMD.

#### Windows requirements setup after command completion.

🚾 C:\Windows\System32\cmd.exe	_		×
requirements.txt (line 13)) (3.2.0.post0)			
Requirement already satisfied: python-magic-bin==0.4.14 in c:\users\nickd\appdata\local\programs\python\p	ython3	9∖lib\s	it
e-packages (from -r requirements.txt (line 15)) (0.4.14)			
Requirement already satisfied: soupsieve>=1.2 in c:\users\nickd\appdata\local\programs\python\python39\li (from beautifulsoup4==4.8.2->-r requirements.txt (line 1)) (2.3.2.post1)	.b\site	-packag	ges

site-packages (from PyPDF2->-r requirements.txt (line 12)) (4.3.0)			
C:\Users\nickd\Downloads\RLEAPP-main>			

Next, run the command line (CLI) command or graphical user interface (GUI) command based on the Operating System and choice of program.

CLI
<pre>\$ python rleapp.py -t <zip fs="" gz="" tar=""  =""> -i <path_to_extraction> -o <path_for_report_output></path_for_report_output></path_to_extraction></zip></pre>
GUI
\$ python rleappGUI.py
Help
\$ python rleapp.pyhelp

#### Example of "python rleappGUI.py"

### SET UP AND USE

Next select "browse file" or "folder" and "select tar/zip/gz" file type. Select "output" and then "process". View of processing:

#### Once "Ok" is selected an HTML file will popup. Expected output HTML file:

## **MOBILE FORENSICS**

Post-closing out of the HTML file there will be a folder labelled RLEAPP\_Reports\_(date) saved to the output location. Open the "folders" or "HTML" files to access the data.

RLEAPP\_Reports\_ 2023-02-06\_Mon day\_133357

Select "index.html" for the summary.html file. Specific artifacts may be found in their designated folders.
